

Meeting Minutes – Technical Direction & Research Planning

Prepared by: Anandhu Raveendran (24254189)

Date: 26 September 2025

Project: Language-Based Geographic Reasoning System

Attendees: Whole group

Key Decisions

- **Dashboard removed** (duplicated Result page).
→ Prior dashboard work will not be pursued further.

Updates

- **Frontend:**
 - Brielle demoed Result page with a single result view.
 - Anandhu reassigned to continue Result page from where Brielle left.
 - Yao implemented login/auth using localStorage.
- **Backend:**
 - Team discussed the **annotation** approach and next steps.
- **Evaluation:**
 - Zeke presented test outcomes (correct vs. wrong); **client was satisfied** with progress.

Action Items

- **Anandhu:** Continue Result page development; align with Brielle's latest work.
- **Backend team:** Formalize annotation workflow and share guidelines.
- **Zeke:** Prepare a concise test summary for client handout.
- **Yao:** Harden auth flows (edge cases) and document usage.
